Phil-Mont Net Control Script

**CHECK THE BLURB AND WEBSITE FOR ANNOUNCEMENTS
AND THIS WEEK'S BIRTHDAYS BEFORE STARTING THE NET!**

PREAMBLE:
Good morning, this is [YOUR CALL], my name is [YOUR NAME], and I am your
Net Control Station for the Phil-Mont Mobile Radio Club Sunday Morning 2
meter, Echo-Link and Allstar net. I hope you enjoyed the 9AM broadcast of
the ARRL Amateur Radio Newsline here on the W3QV repeater. If not, make
sure to check out this feature of the Sunday morning Phil-Mont activities.
Before we proceed with the net, is there any priority traffic for the net?
Emergency traffic can of course break into the net at any time.
[*drop carrier, pause for priority traffic*]

This net meets every Sunday morning at 9:30 AM through the W3QV Jim
Spencer Memorial Repeater System, for the purpose of making club
announcements, passing traffic and information of interest to the local ham
radio community.
We welcome all amateur radio operators to check in and participate. You will
need a PL tone of 91.5 to access the repeater. Phil-Mont also has, at 10AM,
the 75-meter Phone Net on 3.993 MHz SSB. Net Control Stations will be on the air for at least 20
minutes for this net.

Please join us on our new Drive Time NET 5pm Daily 2 meters (Mon-Fri)

 You are invited to attend our regular Monthly meeting on the second Wednesday of each month on
our 2meter repeater 147.030 (+offset 91.5 PL) Bucks County and North PL 88.5
ALLSTAR NODE 47970   Echolink W3QV-R Some meetings may be available on
Zoom**.** Information will be posted on the club web page and the Groups.IO

 New License and Upgrade Examinations are not available in person at this time

Information concerning membership in Phil-Mont and license examinations is
available at our regular monthly meeting and on our club website at
www.phil-mont.org. Membership is open to licensed amateurs only, but all
are welcome to attend meetings, which feature programs and speakers of
interest to everyone. To stay up to date on the latest club information and
announcements, please join our club email list, just click the link at the top of
the club's web page.

BEGIN ANNOUNCMENTS:
Remind them to keep it very brief! *Recognize and allow people, in turn,
to make their announcement.*

START TAKING CHECK-INS:

I will now take check-ins from EchoLink. ***NOTE:*** *Log on to supermon URL so you can see who is connected. Pre-write the list of stations as the order you see changes every time a different station keys up (you will lose track of who you called if you don't do this step).* Call each station on the list you have written. *Keep an eye on the site for any late Echolink/Allstar check-ins during the net.*

Call for mobile, QRP, and distant stations. Then take groups by suffix, A-C, AH, A-N, A-S, A-Z. Please try to be personable and use first names whenever possible.

After the first round of check-ins through the alphabet, give announcements, including those made by others, again. Call for further check-ins. Pass all traffic as soon as possible. Keep it light, but orderly. *Read the Birthdays, for the coming week only, from the Blurb.*

When there are no further check-ins (approximately 9:50-10 AM), thank everyone for checking in, remind everyone of the other nets, and invite everyone to check-in next week. *Try not to close the net early since we get some people showing up late.* Lastly, clear and return the repeater back to normal amateur radio use.
